Mainflingen Signal reception is possible within approximately 1800 km of the transmitter. As a general rule, point the back of the clock towards the transmitter that is closest to your location. If you experience reception problems, try pointing it in the direction of the other transmitter. When receiving indoors, move to a location as near as possible to a window. USING THE CLOCK 1 This clock can receive the time calibration signals transmitted from Mainflingen, Germany and Rugby, England. It automatically selects reception from the transmitter whose signal is strongest. Antenna Icon The antenna icon appears when at least one signal receive operation is successful during a day. The antenna icon is cleared at 2 a.m. and 3 a.m. each day, and will reappear as soon as a subsequent signal receive operation is successful. Wave OK Indicator The Wave OK indicator is displayed when there has been a successful receive operation within the last hour. This indicator disappears at the top of each hour, or when you perform a manual receive operation. Unsuccessful Signal Reception The antenna icon disappears from the display if no signal receive operation is successful during a continuous 24-hour period. If this happens, try changing the position or orientation of the clock, and press the WAVE button 8 to receive again. You cannot turn it on or off manually. <http://www.vieiras.pt/imagensprodutos/burpee-aristocrat-manual.xml>
